

OUR PLASTIC FABRICATION MACHINERY AND CAPABILITIES

We have a highly skilled team who can design and manufacture products to suit your needs and we can also repair your old products.

No job is too large or too small to consider.

Plastics Fabrication ▪ Prototypes ▪ On-site Repairs

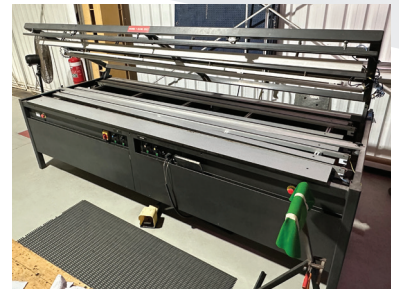

OUR CNC ROUTER

Capable of cutting sheets of timber, aluminum and plastic up to 2.4m x 1.2m and a max thickness of 100mm. This machine is used to cut all the components for each job.

OUR PLASTIC STRIP BENDER

Used to create boxes, display cases, brochure holders and many other products.

OUR OVEN

Used to create curved products, such as boat screens.

OUR LASER

Used to cut all small jobs, samples, engraving of any kind and more.

WE CAN SUPPLY PUBS, CLUBS,
BARS, RESTAURANTS, CAFES,
RETAIL OUTLETS, MUSEUMS,
GALLERIES AND CULTURAL OUTLETS
WITH CUSTOM FABRICATED AND
CREATIVELY DESIGNED PRODUCTS.
