

# NorthernPlastics

## OUR PLASTIC WELDING MACHINERY AND CAPABILITIES

We are equipped with state-of-the-art CNC routing, laser cutting and sheet welding machinery. We have the capability to produce precision cut components for a wide range of industries.

### OUR PLASTIC BENDER

Capable of bending up to 20mm thick material to create boxes and trays, from Domestic to Mining applications.

### OUR SHEET WELDER

Capable of joining sheets up to 57mm x 5m long. From 180° to 90° join to create larger tanks.

### OUR CNC ROUTER

Capable of cutting sheets of timber, aluminum and plastic up to 4m x 2m and a max thickness of 100mm. This machine is used to cut all the components for each job.

**NO JOB IS TOO LARGE  
OR TOO SMALL  
FOR OUR HIGHLY  
SKILLED TEAM.**

NorthernPlastics  
SUPPLIES & FABRICATION

Please contact our sales team to discuss your next project.  
We ship Australia-wide.

**(07) 4775 2455**  
590 Ingham Rd, Townsville
