

NORTHERN PLASTICS MARINE FABRICATION

PLASTIC COMPONENTS

Northern Plastics specialise in the custom design and fabrication of plastic components for the Boating Industry. Examples of what we can do include:

- » Custom-built shrouds for navigational equipment, offering protection against saltwater and glare
- » Tanks and storage boxes fabricated from marine-grade Polyethylene
- » Bait/filleting boards using both HDPE and Aluminium
- » Transom boards and spacers for engine and control mounting
- » Low-friction wear strips for boat trailers

BOAT WINDSCREENS

Allow us to replace your old, crazed, plastic boat windscreen with a new windscreen manufactured from clear or tinted UV-resistant Acrylic or Polycarbonate.
